Citizens Update for October 15, 2018 rain weather

With temperatures, it will make any rescues very difficult if it does flood. FWFD Swift Water Rescue and Texas Task Force 2 are staged in our area if needed. The City Hall Annex has been offered as a shelter for those residents who need it. Fire Department is at the Annex now. Red Cross has been notified and will respond if we have any residents show up. They will provide food and beverages to any residents that show up. Tarrant County EOC is also preparing sandbags for residents that want them. All citizens in the flood areas are urged not to wait and seek higher grounds. This is a precautious announcement.

Thank you,

Emergency Services
